

# Introducing Brother's new range of ADS Network Scanners

Hardware that lasts, software that excels.

# ADS-3600W Wireless High-Speed Network Scanner

Brother's ADS-3600W merges premium 2-sided (duplex) scanning hardware and a feature-rich software package at a highly competitive price.

## Engineered for high performance and low maintenance

As innovative as it is robust, Brother's ADS-3600W boasts precision-made hardware designed to perform in high volume scanning departments with a 5,000 sheet daily duty capacity<sup>2</sup>.

This highly advanced scanner protects your original documents and ensures the highest levels of productivity thanks to its jam sensor, multi-feed detection and advanced reverse roller system technology.

## An intuitive touchscreen that unlocks a wealth of features

Create your own profiles of up to 48 shortcuts and scan directly to PC, web, network, email server, USB, apps (including Microsoft Office - Word, Excel & Powerpoint) and the cloud via the 9.3cm LCD colour touchscreen.

## Perfect for business cards and extra long paper

Our scanners are built to handle 2-sided (duplex), mixed batches of everything from plastic business cards and pen marked expenses receipts to multi-page contracts and extra long<sup>10</sup> 5,000mm paper at weights from 27 to 413 gsm<sup>1</sup>.

## Wired and wireless network connectivity for increased flexibility and efficiency

All Brother ADS models allow you to scan to your network and beyond with truly PC-free scanning. The ADS-3600W offers even greater connectivity thanks to its wireless network support.

Outstanding A4 Network Scanner

## Features advanced image processing and premium software

Transform everyday documents into powerful digital assets with a suite of complete programs including ABBYY FineReader Professional for PC and Mac, ABBYY PDF Transformer+ and Nuance PaperPort 14 SE for PC. And don't forget Brother's own user-friendly Control Center workstation for PC and Mac.

The ADS range also features industry-standard ISIS and TWAIN drivers that ensure effortless integration into document management systems while a range of advanced image processing functions intuitively prepare and clean scanned files, optimising the quality of the scanned image for all your digitisation needs.

## Access, edit and share from anywhere

Scan directly to a variety of cloud services or go mobile and scan to your staff's smartphone and tablet devices with Brother's own iPrint&Scan app. This allows for multiple user collaboration, streamlined storage management and peace of mind in the event of disaster recovery.

## Bespoke workflow via Brother Solutions Interface (BSI)

Featured on both the ADS-3600W and ADS-2800W, BSI is a platform that helps third-party developers and system integrators easily merge customised solutions with compatible Brother devices.

## NFC makes scanning and security easy

Near Field Communication (NFC) can be used to protect confidential info by requiring users to tap their ID card on the device to unlock it.

NFC can also be used to "touch to connect", for direct scanning to your mobile devices.\*

\* Please confirm with the manufacturer of your mobile device as to whether it supports NFC.

## ADS-3000N High-Speed Network Scanner

A dependable office essential for higher volume scanning, Brother's ADS-3000N easily handles 50 pages per minute and up to 5,000 sheets a day<sup>2</sup>. Ideal for hard copy based businesses or disaster recovery planning, The ADS-3000N is built for an efficient and user-friendly drive towards digital archiving.

- Rapid 2-sided (duplex) colour scans (up to 50 pages per minute / 100 images per minute)
- Gigabit wired network and SuperSpeed USB 3.0 connectivity
- 50-sheet mixed batch document capacity
- TWAIN and ISIS drivers for optimum performance
- Includes advanced image processing features
- Premium software essentials included for PC and Mac<sup>3</sup>

## ADS-2800W Wireless Network Scanner

The ADS-2800W adds a staff-friendly colour LCD touchscreen and wireless connectivity to its already impressive list of office-ready features. This is ideal for quickly scanning to cloud services and emails, freeing up the user to focus on other core business tasks.

- Fast 2-sided (duplex) colour scans (up to 30 pages per minute / 60 images per minute)
- Gigabit wired network, Hi-Speed USB 2.0 and wireless connectivity
- 50-sheet mixed batch document capacity
- Lockable 9.3cm colour LCD touchscreen
- TWAIN and ISIS drivers for optimum performance
- Includes advanced image processing features
- Premium software essentials included for PC and Mac<sup>3</sup>

## Robust hardware built for the long run

---

### **Diverse paper handling and fast output**

Our new scanners can handle a range of 2-sided (duplex) media as well as embossed plastic card up to 1.4mm thickness and 27-413 gsm paper weight thanks to the A4-ready ADF (Automatic Document Feeder). The easy-to-use range also gives you rapid, richly detailed scans at up to 50 pages a minute (or 100 images per minute, 2-sided (duplex)) at 300dpi, making it ideal for quickly handling important batch jobs.

### **Advanced reverse roller system**

This advanced system manages incoming bulk paper jobs so only one sheet is processed at a time. This ensures unrivalled reliability when scanning a variety of document types and weights.

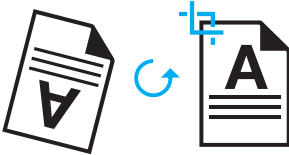

### **Multi-feed detection**

Our scanners use sound waves to identify potential misfeed, automatically suspending the paper pathway and alerting the user if an irregular signal is detected. This reduces the risk of damaged documents and lost data. Additionally, the ADS-3600W and ADS-3000N models feature an in-built jam sensor that expertly controls the flow of documents at high-speed.

# Industry-Leading Image Processing

## Paper detection processing features

These key features automatically detect the correct dimensions of the inputted pages and amend the outputted files so the user doesn't have to edit manually or rescan.

- Range features include:
- Auto Deskew
  - Auto Image Rotation
  - Detect End of Page

## Page control processing features

These features are designed to recognise and optimise a variety of mixed document types to output them as efficiently as possible. For example, blank page scans can be automatically detected and removed, reducing file size when sharing and saving paper when printing.

Range features include:

- Plastic Card Mode
- Margin Setting
- Edge Filling
- Skip Blank Page
- 1 Sheet Scan
- Continuous Scan
- Multi-Feed Detection
- Margin Setting
- Carrier Sheet Mode

## Image quality processing features

Advanced image processing features clean scanned documents, ensuring important information is captured accurately. This results in less ink wastage when documents are printed, reduces file sizes for sharing and generates a clearly legible article when reading. It also means less time spent manually correcting and preparing documents, and more time spent focusing on the core of your business.

Range features include:

- B&W Threshold Adjust
- Grayscale Adjust
- Colour Tone Adjust
- Auto Colour Detect Adjust
- Background Processing
- Colour Drop-Out
- Boldface Formatting
- Blurred Character Correction
- Edge Emphasis
- Noise Reduction
- Punch Hole Removal

# Powerful Imaging Drivers & Software Included

## Brother Control Center and BRAdmin Professional 3

Enjoy easy-to-use scan software that offers all the essentials in one place, including support, device settings management, advanced image processing features and various “scan to” options.

## Nuance PaperPort 14 SE

Used by millions worldwide, PaperPort lets the user scan documents as well as storing, viewing, editing and converting the digital files via one simple, powerful application.

## TWAIN 2.2, ISIS, WIA, ICA and SANE drivers

These essential drivers ensure effortless integration into document management systems and imaging solutions across Windows, Mac and Linux operating systems.

## ABBYY FineReader

ABBYY FineReader Professional (available with the ADS-3000N and ADS-3600W models) is one of the world's most renowned OCR (Optical Character recognition) software. Designed to end the retyping and reformatting of documents, it supports up to 190 languages for text recognition.

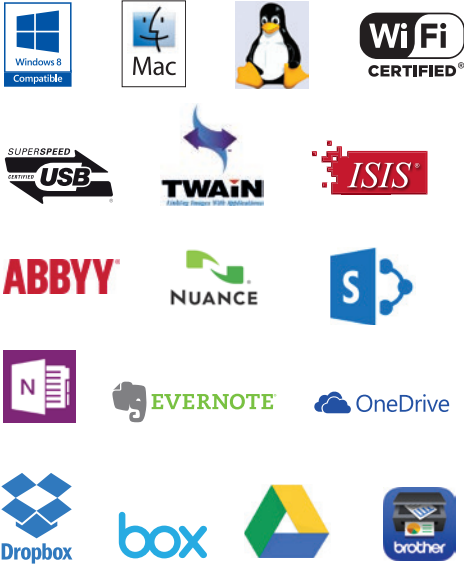

ABBYY FineReader Sprint (available with the ADS-2800W) quickly converts scanned documents into editable formats including Microsoft Word and Excel while retaining fonts, tables and layouts.

## ABBYY PDF Transformer+

ABBYY PDF Transformer+ allows you to quickly create, read, convert, comment, edit, password protect and share PDF documents.

# ADS Scanner Range Overview

Visit: <http://support.brother.com/>  
for downloads and to register your FAQ's.

<sup>1</sup> For best performance it is recommended to use a carrier sheet for the following weights: 27-39 gsm  
<sup>2</sup> Maximum number of scanned pages per day can be used to compare designed durability between like Brother products. For maximum scanner life, it is best to choose a scanner with a duty cycle that far exceeds your scan requirements.  
<sup>3</sup> Optional free download from the Brother Solutions Centre <http://solutions.brother.com>  
<sup>4</sup> All available with supplied software  
<sup>5</sup> Some options may require additional download or subscription  
<sup>6</sup> Capacity varies dependent on paper weight  
<sup>7</sup> Document sizes larger than A4, but not exceeding A3, can be scanned (single-side) using carrier sheet  
<sup>8</sup> Must be web connected  
<sup>9</sup> Windows® only  
<sup>10</sup> Can scan documents longer than A4 size. When using Brother (TWAIN/ISIS) to scan at 200 dpi, the maximum scanning length is 5,000 mm
